

HACI ÖMER TARMAN ANATOLIAN HIGH SCHOOL

Hacı Ömer Tarman High School was founded by Hacı Ömer Tarman. The school is located on Hoşdere, which is a beautiful neighbourhood. The school provides a brilliant education in foreign languages which helps the students pass the preparatory year in popular and successful universities. There are

also students who graduate from our school and study abroad with the foreign languages that they have been taught. Every year the graduates are accepted to the best universities to study. The academic success in our school increases every single year. The students in our school are not only successful on academic matters but also in extracurricular activities. Since there are lots of social activities that are happening in our school, the students are also able to improve their social side. In our school we do not just learn academics but we also care that everyone learns important values in life.

HOTALMUNCLUB

HotalMun Club was founded in 2016 and has been active for 4 years. Since its establishment, our club has actively involved its members in club activities and has done its best to inform students about the political/economic problems and teach their functions while preparing them for university and business life. We have participated to Eurosima19, FLMUN19, JTMUN19, and YCMUN19 in the last quarter of the 2018-2019 academic year, enabled our school and our students to gain a good reputation among "MUN" clubs. Our club, which continues its activities in the 2019-2020 academic year, keeps educating its students properly in every subject and does its best to lead them to success. In this year's program, we will participate in various MUN conferences and organize MUN simulations for our own school and continue to support the educational activities of the 2019-2020 academic year.

MISSION

Our mission as the MUN club is to improve the students' perspectives towards the world and to reinforce the principle of democracy by practicing.

Mun conferences seek solutions to global problems on the world agenda.

EXPERIENCES

In 2019, we have participated in four MUNs as Hacı Ömer Tarman Anatolian High School so far. Each of these has been a very good experience for our students and showed their success in these conferences.

The EUROSIMA conference, which took place on April 20-23, 2019, was the first MUN conference that our school participated in the 2018-2019 academic year. EUROSIMA is a simulation of the European Union organized by METU.

Eleven students represented our school at this conference. Our school students in Turkey has been the only public high school that competed with students from universities. Many of our students have taken their steps to the world of MUN with this conference. Five students took part in the simulation of the European Parliament, two students in the Council of the European Union,

two students in the Foreign Affairs Committee and two students in the simulation of the Justice and Home Affairs Council.

FLMUN, which was held on 10-11 May 2019, was a conference where our school was invited by Ankara Science High School. Five of the eight students who attended the conference returned to our school with an award. Our students received one "Best Delegate", two "Outstanding Delegate", one "Promising Delegate", and one "Honorable Mention". The success of our school has also continued at all MUN conferences. In this conference, two of our students took part in the simulations of DISEC (Disarmament and International Security Committee), two of them were in SOCHUM (Social, Human and Cultural Committee) and four of them were in Cabinet of Truman simulation.

Five students represented our school at JTMUN which was held between 10-13 May 2019. At Jale Tezer, our students managed to stand out from private schools and make a name for themselves. In this conference, one of our students participated in the last conference of the 2018-2019 academic year with the Outstanding Delegate award and one of the students with the Honorable Mention awards. One of our students took part in the simulations of UNHCR, one of our students was in World War 3 and three of them were in the simulation of New World.

We attended the first MUN conference of the 2019-2020 academic year with YCMUN which was held between 24-27 October 2019. Our team, which aims to work more effectively this year, started its studies earlier than the last academic year. Two students represented our school at this conference and these two students returned with two awards and made our school proud. One student received the "Outstanding Delegate" award and the other student received the "Honorable Mention". Two of our students who represented our school were on a fun committee. We hope that our students will raise the name of our school to a higher level.
